Home Resident
Handbook

Older
Adults

Youth &
Families

The Mental Health and Wellbeing Team (of the Fort Collins Interfaith Council) has developed a handout (“Community Resource Guides 2026”) that we believe will be useful to people dealing with mental health issues in the Larimer County area and to the people who support them. The design is a set of QR codes one can follow to resources that are available. The material referenced was collected from several agencies in county and city governments and agencies involved in health care and education, including police and fire departments.

We would appreciate recommendations about structure, content, distribution and use. At this stage, you can send your comments for the Mental Health and Wellbeing Team in care of the Interfaith Council at ftcollinsinterfaith@gmail.com.
